MyOsteopathy

MyOsteopathy was created in 2022 by passionate and creative osteopaths from the United Kingdom. We create software that brings osteopaths together - helping us build and grow our dream osteopathy business.

For Osteopaths

As osteopaths ourselves, we're constantly re-imagining what's possible - innovating new features that support osteopaths and help us to work in new ways. We believe osteopaths need to be cared for too!

Testimonials

What osteopaths say about MyOsteopathy
Bringing osteopaths together!

Jason Haughton

Thorpe End Osteopathy

"I've been using pen and paper for over 15 years. After switching to MyOsteopathy, I will not look back. My no-shows have reduced by nearly 100%. I'm more than happy to recommend MyOsteopathy!"

Paul Clusker

BAC Clinic

"As an osteopath with over 30 years experience, I'm delighted to recommend MyOsteopathy. I love the clinic software and how they are promoting osteopathy and supporting new graduates!"
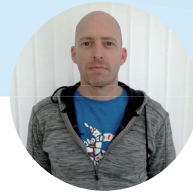

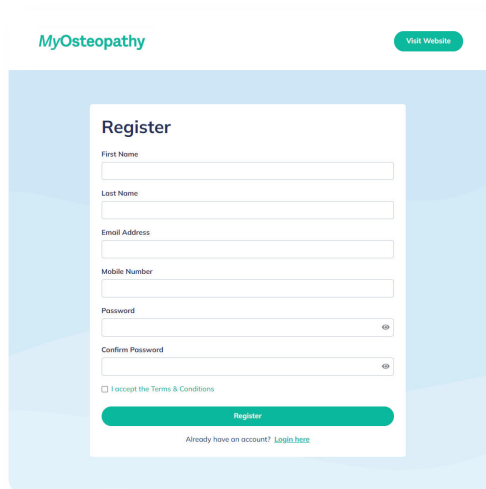

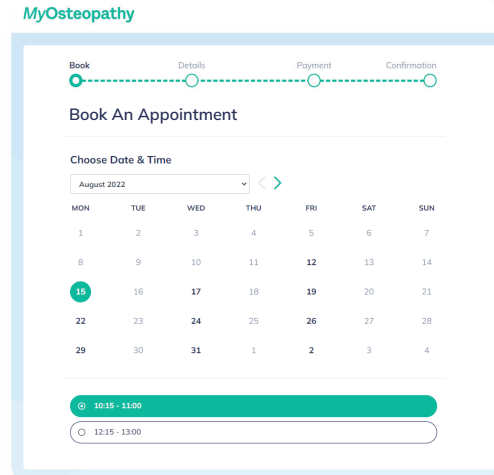

Paul Baxter

PB Mobile Osteopath

"I recently qualified as an osteopath. I'm currently working as an associate as I build my own practice. MyOsteopathy have gone above and beyond to help me get started in my practice!"

Features

Our features are created by osteopaths for osteopaths. They are beautifully designed and easy to use. Features include: Patient records, online bookings, payments, reminders, re-calls, treatment plans, invoices, and our brand new reporting dashboard.
